

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Wieczór Wigilijny

Creation date 25th August 2026 Version 4

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Substance / mixture Wieczór Wigilijny  
Number mixture  
UFI 10000090  
Q580-10AY-V00X-P6GD

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### Mixture's intended use

Kompozycja zapachowa Środki aromatyzujące

##### Mixture uses advised against

The product should not be used in ways other than those referred in Section 1.

#### 1.3. Details of the supplier of the safety data sheet

##### Supplier

Name or trade name TOP WOSK PACIOREK I WĄŻ SPÓŁKA JAWNA  
Address MARSZAŁKOWSKA 58 M15, WARSZAWA, 00-545  
Poland  
VAT number PL7011189826  
Phone +48 534 541 490  
Email sklep@topwosk.pl  
Web address www.topwosk.pl

#### 1.4. Emergency telephone number

European emergency number: 112

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification of the mixture in accordance with Regulation (EC) No 1272/2008

The mixture is classified as dangerous.

Skin Irrit. 2, H315  
Skin Sens. 1A, H317  
Eye Irrit. 2, H319  
Aquatic Chronic 1, H410

##### Most serious adverse effects on human health and the environment

Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Very toxic to aquatic life with long lasting effects.

#### 2.2. Label elements

##### Hazard pictogram

##### Signal word

Warning

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Wieczór Wigilijny

Creation date 25th August 2026 Version 4

### Hazardous substances

2-acetyl-1,2,3,4,5,6,7,8-octahydro- 2,3,8,8-tetra-methylnaphtalene (main isomer)

linalol

Linalyl acetate

2H-1-benzopyran-2-one (=coumarin)

2,6,6,8-tetramethyl-9-acetyl- tricyclo{5.3.1.0(1,5)}undec-8-ene

(R)-p-mentha-1,8-diene

cis-4- (isopropyl)cyclohexanemethanol

6,7-Dihydro-1,1,2,3,3-pentamethyl- 4(5H)-indanone

Cedryl methyl ether

Elemi oil

$\alpha$ -methyl-1,3-benzodioxole-5-propionaldehyde

Pepper (Piper), P. nigrum, extract

3-phenyl-2-propen-1-ol (= Cinnamyl alcohol)

Clove, ext.

HELIOTROPINE

citral

Cineole

Bicyclo[3.1.1]heptane, 6,6-dimethyl- 2-methylene- (= Beta-pinene)

3-phenylprop-2-enal

2H-Indeno[4,5B] furan, decahydro- 2,2,6,6,7,8,8-heptamethyl

pin-2(3)-ene

1-(2,6,6-trimethyl-1,3-cyclohexadien-1-yl)-2-buten-1-one

isoeugenol

### Hazard statements

H315

Causes skin irritation.

H317

May cause an allergic skin reaction.

H319

Causes serious eye irritation.

H410

Very toxic to aquatic life with long lasting effects.

### Precautionary statements

P261

Avoid breathing mist/vapours/spray.

P264

Wash hands and exposed parts of the body thoroughly after handling.

P280

Wear eye protection/protective gloves/protective clothing.

P333+P313

If skin irritation or rash occurs: Get medical advice/attention.

P362+P364

Take off contaminated clothing and wash it before reuse.

P391

Collect spillage.

### 2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended. Does not contain any PMT or vPvM components.

## SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment

### Notes

- Note C: Some organic substances may be marketed either in a specific isomeric form or as a mixture of several isomers. In this case the supplier must state on the label whether the substance is a specific isomer or a mixture of isomers.*
- Drug precursor*

Full text of all classifications and hazard statements is given in the section 16.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet.

#### If inhaled

Terminate the exposure immediately; move the affected person to fresh air. Protect the person against growing cold. Provide medical treatment if irritation, dyspnoea or other symptoms persist.

#### If on skin

Remove contaminated clothes. Wash the affected area with plenty of water, lukewarm if possible. Soap, soap solution or shampoo should be used if there is no skin injury. Provide medical treatment if skin irritation persists.

#### If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. Rinsing should continue at least for 10 minutes. Provide medical treatment, specialized if possible.

#### If swallowed

Rinse out the mouth with water and provide 0.2-0.5 L of water. Provide medical treatment if the person has any health problems.

### 4.2. Most important symptoms and effects, both acute and delayed

#### If inhaled

Not expected.

#### If on skin

May cause an allergic skin reaction.

#### If in eyes

Causes serious eye irritation.

#### If swallowed

Irritation, nausea.

### 4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

#### Suitable extinguishing media

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

#### Unsuitable extinguishing media

Water - full jet.

### 5.2. Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Wieczór Wigilijny

Creation date 25th August 2026 Version 4

### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Prevent contact with skin and eyes.

### 6.2. Environmental precautions

Prevent contamination of the soil and entering surface or ground water. Do not allow to enter drains.

### 6.3. Methods and material for containment and cleaning up

Spilled product should be covered with suitable (non-flammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per the Section 13. In the event of leakage of the substantial amount of the product, inform fire brigade and other competent bodies. After removal of the product, wash the contaminated site with plenty of water. Do not use solvents.

### 6.4. Reference to other sections

See the Section 7, 8 and 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Prevent contact with skin and eyes. Contaminated work clothing should not be allowed out of the workplace. Wash hands and exposed parts of the body thoroughly after handling. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection. Avoid release to the environment.

### 7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose.

### 7.3. Specific end use(s)

not available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

The mixture contains substances for which occupational exposure limits are set.

### 8.2. Exposure controls

Take off contaminated clothing and wash before reuse. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

#### Eye/face protection

Protective goggles.

#### Skin protection

Hand protection: Protective gloves resistant to the product. When choosing appropriate thickness, material and permeability of the gloves, observe recommendations of their particular manufacturer. Observe other recommendations of the manufacturer. Other protection: protective workwear. Contaminated skin should be washed thoroughly.

| Glove material | Thickness | Breakthrough time | Class | Exposure time |
|----------------|-----------|-------------------|-------|---------------|
|                |           | >10 min           | 1     | Short-term    |
|                |           |                   |       | Long-term     |

#### Respiratory protection

Halfmask with a filter against organic vapours or a self-contained breathing apparatus as appropriate if exposure limit values of substances are exceeded or in a poorly ventilated environment.

#### Thermal hazard

Data not available.

#### Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2. Collect spillage.

| Particle characteristics                                 | data not available                                |

#### 9.2. Other information

not available

### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

not available

#### 10.2. Chemical stability

The product is stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

Unknown.

#### 10.4. Conditions to avoid

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

#### 10.5. Incompatible materials

Protect against strong acids, bases and oxidizing agents.

#### 10.6. Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

### SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Hazardous substances in concentrations exceeding exposure limits may cause acute inhalation poisoning, depending on the concentration and duration of exposure. No toxicological data is available for the mixture.

#### Acute toxicity

Data for the mixture are not available. Based on the available data, the criteria for classification of the mixture are not met.

### 6,7-Dihydro-1,1,2,3,3-pentamethyl- 4(5H)-indanone

| Route of exposure | Parameter | Value         | Exposure time | Species | Sex |
|-------------------|-----------|---------------|---------------|---------|-----|
| Oral              | ATE       | 2900 mg/kg bw |               |         |     |

### Cedryl methyl ether

| Route of exposure | Parameter        | Value          | Exposure time | Species | Sex |
|-------------------|------------------|----------------|---------------|---------|-----|
| Oral              | ATE              | >5000 mg/kg bw |               |         |     |
| Dermal            | ATE              | >5000 mg/kg bw |               |         |     |
| Oral              | LD <sub>50</sub> | >5000 mg/kg    |               | Rat     |     |
| Dermal            | LD <sub>50</sub> | >5000 mg/kg    |               | Rabbit  |     |

### Cineole

| Route of exposure | Parameter | Value         | Exposure time | Species | Sex |
|-------------------|-----------|---------------|---------------|---------|-----|
| Oral              | ATE       | 2480 mg/kg bw |               |         |     |

### cis-3-hexenyl 2-hydroxybenzoate

| Route of exposure | Parameter        | Value          | Exposure time | Species | Sex |
|-------------------|------------------|----------------|---------------|---------|-----|
| Dermal            | ATE              | >5000 mg/kg bw |               |         |     |
| Dermal            | LD <sub>50</sub> | >5000 mg/kg    |               | Rabbit  |     |

### cis-4- (isopropyl)cyclohexanemethanol

| Route of exposure | Parameter | Value           | Exposure time | Species | Sex |
|-------------------|-----------|-----------------|---------------|---------|-----|
| Oral              | ATE       | >10000 mg/kg bw |               |         |     |

### Clove, ext.

| Route of exposure | Parameter | Value         | Exposure time | Species | Sex |
|-------------------|-----------|---------------|---------------|---------|-----|
| Oral              | ATE       | 2650 mg/kg bw |               |         |     |
| Dermal            | ATE       | 2500 mg/kg bw |               |         |     |

### HELIOTROPINE

| Route of exposure | Parameter        | Value          | Exposure time | Species | Sex |
|-------------------|------------------|----------------|---------------|---------|-----|
| Oral              | ATE              | 2700 mg/kg bw  |               |         |     |
| Dermal            | ATE              | >5000 mg/kg bw |               |         |     |
| Oral              | LD <sub>50</sub> | 2700 mg/kg     |               | Rat     |     |
| Dermal            | LD <sub>50</sub> | >5000 mg/kg    |               | Rat     |     |

### isoeugenol

| Route of exposure | Parameter        | Value         | Exposure time | Species | Sex |
|-------------------|------------------|---------------|---------------|---------|-----|
| Oral              | ATE              | 1560 mg/kg bw |               |         |     |
| Dermal            | ATE              | 1770 mg/kg bw |               |         |     |
| Oral              | LD <sub>50</sub> | 1560 mg/kg    |               | Rat     |     |
| Dermal            | LD <sub>50</sub> | 1770 mg/kg    |               | Rabbit  |     |

### linalol

| Route of exposure | Parameter        | Value         | Exposure time | Species | Sex |
|-------------------|------------------|---------------|---------------|---------|-----|
| Oral              | ATE              | 2790 mg/kg bw |               |         |     |
| Oral              | LD <sub>50</sub> | 2790 mg/kg    |               | Rat     |     |

### Linalyl acetate

| Route of exposure | Parameter        | Value          | Exposure time | Species | Sex |
|-------------------|------------------|----------------|---------------|---------|-----|
| Oral              | ATE              | 13934 mg/kg bw |               |         |     |
| Dermal            | ATE              | >5000 mg/kg bw |               |         |     |
| Oral              | LD <sub>50</sub> | 13934 mg/kg    |               | Rat     |     |
| Dermal            | LD <sub>50</sub> | >5000 mg/kg    |               | Rabbit  |     |

### Pentyl 2-hydroxybenzoate

| Route of exposure | Parameter        | Value         | Exposure time | Species | Sex |
|-------------------|------------------|---------------|---------------|---------|-----|
| Oral              | ATE              | 2000 mg/kg bw |               |         |     |
| Oral              | LD <sub>50</sub> | 2000 mg/kg    |               | Rat     |     |

### Pepper (Piper), *P. nigrum*, extract

| Route of exposure | Parameter        | Value          | Exposure time | Species | Sex |
|-------------------|------------------|----------------|---------------|---------|-----|
| Oral              | ATE              | >5000 mg/kg bw |               |         |     |
| Dermal            | ATE              | >5000 mg/kg bw |               |         |     |
| Oral              | LD <sub>50</sub> | >5000 mg/kg    |               | Rat     |     |
| Dermal            | LD <sub>50</sub> | >5000 mg/kg    |               | Rabbit  |     |

### pin-2(3)-ene

| Route of exposure | Parameter | Value              | Exposure time | Species | Sex |
|-------------------|-----------|--------------------|---------------|---------|-----|
| Oral              | ATE       | >500-2000 mg/kg bw |               |         |     |

### $\alpha$ -methyl-1,3-benzodioxole-5-propionaldehyde

| Route of exposure | Parameter | Value         | Exposure time | Species | Sex |
|-------------------|-----------|---------------|---------------|---------|-----|
| Oral              | ATE       | 3561 mg/kg bw |               |         |     |

### Skin corrosion/irritation

Causes skin irritation. Data for the components of the mixture are not available.

### Serious eye damage/irritation

Causes serious eye irritation. Data for the components of the mixture are not available.

### Respiratory or skin sensitisation

May cause an allergic skin reaction. Data for the components of the mixture are not available.

### Germ cell mutagenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Carcinogenicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Reproductive toxicity

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Toxicity for specific target organ - single exposure

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

## Wieczór Wigilijny

| Creation date | 25th August 2026 | Version | 4 |
|---------------|------------------|---------|---|

### Toxicity for specific target organ - repeated exposure

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### Aspiration hazard

No data are available for either the mixture or the components. Based on the available data, the criteria for classification of the mixture are not met.

### 11.2. Information on other hazards

not available

## SECTION 12: Ecological information

### 12.1. Toxicity

Very toxic to aquatic life with long lasting effects. Data for the components of the mixture are not available.

### 12.2. Persistence and degradability

No data are available for either the mixture or the components.

### 12.3. Bioaccumulative potential

No data are available for either the mixture or the components.

### 12.4. Mobility in soil

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PMT or vPvM components.

### 12.5. Results of PBT and vPvB assessment

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PBT or vPvB components.

### 12.6. Endocrine disrupting properties

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any components that may cause endocrine disruption in the environment.

### 12.7. Other adverse effects

Data not available.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Perfectly cleaned containers can be submitted for recycling.

### Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

## SECTION 14: Transport information

### 14.1. UN number or ID number

UN 3082

### 14.2. UN proper shipping name

ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.

### 14.3. Transport hazard class(es)

9 Miscellaneous dangerous substances and articles

### 14.4. Packing group

III

### 14.5. Environmental hazards

not relevant

### 14.6. Special precautions for user

Reference in the Sections 4 to 8.

### 14.7. Maritime transport in bulk according to IMO instruments

not relevant

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

### 15.2. Chemical safety assessment

not available

## SECTION 16: Other information

### A list of standard risk phrases used in the safety data sheet

|      |                                                       |
|------|-------------------------------------------------------|
| H226 | Flammable liquid and vapour.                          |
| H302 | Harmful if swallowed.                                 |
| H304 | May be fatal if swallowed and enters airways.         |
| H312 | Harmful in contact with skin.                         |
| H315 | Causes skin irritation.                               |
| H317 | May cause an allergic skin reaction.                  |
| H319 | Causes serious eye irritation.                        |
| H332 | Harmful if inhaled.                                   |
| H335 | May cause respiratory irritation.                     |
| H336 | May cause drowsiness or dizziness.                    |
| H361 | Suspected of damaging fertility or the unborn child.  |
| H400 | Very toxic to aquatic life.                           |
| H410 | Very toxic to aquatic life with long lasting effects. |
| H411 | Toxic to aquatic life with long lasting effects.      |
| H412 | Harmful to aquatic life with long lasting effects.    |

### Guidelines for safe handling used in the safety data sheet

|           |                                                                     |
|-----------|---------------------------------------------------------------------|
| P261      | Avoid breathing mist/vapours/spray.                                 |
| P264      | Wash hands and exposed parts of the body thoroughly after handling. |
| P280      | Wear eye protection/protective gloves/protective clothing.          |
| P333+P313 | If skin irritation or rash occurs: Get medical advice/attention.    |
| P362+P364 | Take off contaminated clothing and wash it before reuse.            |
| P391      | Collect spillage.                                                   |

| ISO              | International Organization for Standardization                                                    |
| IUPAC            | International Union of Pure and Applied Chemistry                                                 |
| LD <sub>50</sub> | Lethal dose of a substance in which it can be expected death of 50% of the population             |
| log Kow          | Octanol-water partition coefficient                                                               |
| OEL              | Occupational Exposure Limits                                                                      |
| PBT              | Persistent, bioaccumulative and toxic                                                             |
| PMT              | Persistent, mobile and toxic                                                                      |
| ppm              | Parts per million                                                                                 |
| REACH            | Registration, Evaluation, Authorisation and Restriction of Chemicals                              |
| Repr.            | Reproductive toxicity                                                                             |
| RID              | Regulation concerning the International Carriage of Dangerous Goods by Rail                       |
| Skin Irrit.      | Skin irritation                                                                                   |
| Skin Sens.       | Skin sensitization                                                                                |
| STOT SE          | Specific target organ toxicity - single exposure                                                  |
| UN number        | Four-figure identification number of the substance or article taken from the UN Model Regulations |
| UVCB             | Substances of unknown or variable composition, complex reaction products or biological materials  |
| VOC              | Volatile organic compounds                                                                        |
| vPvB             | Very persistent and very bioaccumulative                                                          |
| vPvM             | Very persistent and very mobile                                                                   |

### Training guidelines

Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

### Recommended restrictions of use

not available

### Information about data sources used to compile the Safety Data Sheet

# SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH) as amended.  
REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Data from  
the manufacturer of the substance / mixture, if available - information from registration dossiers.

### More information

Classification procedure - calculation method.

### Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
