

Coconut

Version 3.0

Updated: January 17, 2025

Printed on: January 17, 2025

SECTION 1: Identification of the substance/mixture and of the company

1.1 Product identifier

Trade name	Coconut
Product number	10000035
UFI	VH20-MOSS-P008-0P14

1.2 Relevant identified uses of the substance or mixture and uses advised against

Intended use	Fragrance composition
--------------	-----------------------

1.3 Details of the supplier of the safety data sheet

Company	TOP WOSK PACIOREK I WĄŻ SPÓŁKA JAWNA
Address	Marszałkowska 58/15, 00-545 Warsaw
Phone	+48 534 541 490
E-mail	sklep@topwosk.pl

1.4 Emergency phone number

112 (emergency number), 998 (fire department), 999 (ambulance)

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture (REGULATION (EC) No 1272/2008)

Serious eye damage, Category 1	Eye Dam. 1, H318
Skin sensitization, Category 1	Skin Sens. 1, H317

2.2 Label elements

Labeling (REGULATION (EC) No. 1272/2008)

Pictograms indicating the type of hazard

Signal word	DANGER
Hazard statements	H317 May cause an allergic skin reaction. H318 Causes serious eye damage.
Precautionary statements	Prevention:

Coconut

Version

Updated: January 17, 2025

Printed on: January 17, 2025

P261 Avoid inhalation
dust/smoke/gas/mist/vapors/spray. P272 Do not
take contaminated protective clothing outside the
workplace.

P280 Wear protective gloves/protective clothing
protective clothing/eye protection/face
protection/hearing protection/ ...

Response:

P302+ P352 IF ON SKIN:

Wash with plenty of water.

P305 + P351 + P338 IF

EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do.

Continue rinsing.

P310 Immediately call a POISON CENTER/doctor.

P321 Specific treatment (see label for more
details).

P333 + P313 If skin irritation or rash occurs: Get
medical advice/attention.

P362+ P364 Take off and wash contaminated
clothing before reuse.

Disposal:

P501 Dispose of contents/container to
in accordance with local, national, or international
regulations.

Hazardous ingredients must be listed on the label:

EC 224-623-4 OCTAHYDROCOUMARIN

EC 204-409-7 PIPERONAL

EC 202-086-7 COUMARIN

2.3 Other hazards

This substance/mixture does not contain any components that are considered to be either persistent, bioaccumulative, and toxic, or very persistent and very bioaccumulative (vPvB) at a level of 0.1% or above. bioaccumulation and toxicity, or very persistent and very bioaccumulative (vPvB) at a level of 0.1% or above.

Ecological information: This substance/mixture does not contain any components considered to endocrine disrupting properties according to Article 57(f) of REACH, Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or higher.

Toxicological information: This substance/mixture does not contain ingredients considered to have endocrine-disrupting properties according to Article 57(f) of REACH Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or higher.

SECTION 3: Ingredients/information on ingredients

3.2 Mixtures

Hazardous ingredients

Chemical Name	CAS No. EC No. Registration number	Classification (REGULATION (EC) No. 1272/2008)	Concentration [Percentage by weight]

SECTION 4: First aid measures

In general, if in doubt or if symptoms persist, always call a doctor. NEVER induce vomiting in an unconscious person.

4.1 Description of first aid measures

In case of eye contamination

Hold eyelids open and rinse thoroughly with soft, clean water for 15 minutes.

Regardless of the initial condition, refer the victim to an ophthalmologist and show them the label.

In case of skin contamination

Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognized cleaning agent.

Be aware that the product may remain between the skin and clothing, watch, shoes, etc.

If you experience symptoms of an allergic reaction, seek a doctor's advice.

If the contaminated area is extensive and/or there is skin damage, consult a doctor or transport the affected person to a hospital.

If swallowed

Do not give the victim anything by mouth.

If swallowed, if the amount is small (no more than one sip), rinse mouth with water and consult a doctor.

Provide conditions for rest. Do not induce vomiting. Call a doctor immediately and show them the label.

In case of accidental ingestion, contact a doctor to assess the need for monitoring and further symptomatic treatment in hospital conditions. Show the label.

4.2 Most important acute and delayed symptoms and effects of exposure

No data available.

Coconut

Version

Updated: January 17, 2025

Printed on: January 17, 2025

4.3 Indications for any immediate medical attention and special treatment of the victim

No data available.

SECTION 5: Firefighting measures

The product is not flammable.

5.1 Extinguishing media

Suitable extinguishing media

water spray or water mist

Unsuitable extinguishing media

water jet

5.2 Special hazards arising from the substance or mixture

Fire often produces dense, black smoke. Exposure to decomposition products may be hazardous to health. Do not inhale smoke.

The following combustion products may be formed:

- carbon monoxide (CO)

- carbon dioxide (CO₂)

5.3 Information for firefighters

No data available.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment, and emergency procedures

Refer to the safety measures listed in sections 7 and 8.

For non-emergency responders

Avoid skin and eye contact.

For emergency responders

Persons carrying out the intervention must be equipped with appropriate personal protective equipment (see section 8).

6.2 Environmental precautions

Contain and collect spilled or leaked material using non-combustible absorbent material such as sand, earth, vermiculite, diatomaceous earth, in barrels for disposal.

Coconut		
Version	Updated: January 17, 2025	Printed on: January 17, 2025

Prevent material from entering sewage systems or waterways.

6.3 Methods and materials for preventing the spread of contamination and for removing contamination

Cleaning with detergents is recommended; do not use solvents.

6.4 References to other sections

No data available.

SECTION 7: Handling and storage

Recommendations for storage rooms also apply to workshops where the mixture is used.	
People who have ever experienced skin allergies should not come into contact with this mixture.	
7.1 Precautions for safe handling	
Precautions	Wash hands after each use. Remove contaminated clothing and wash it before reuse. Ensure adequate ventilation, especially in enclosed rooms. Rooms where the mixture is used continuously should be equipped with emergency showers and eye wash stations.
Fire prevention	Use in well-ventilated areas. Secure against access by unauthorized personnel.
Recommended equipment and procedures	Personal protective equipment - see section 8. Follow the precautions on the label and industrial safety regulations. Avoid contact with eyes at all costs. Open containers should be closed carefully and store in an upright position.
Prohibited equipment and practices	In rooms where the mixture is used, smoking, eating, or drinking.

7.2 Conditions for safe storage, including any incompatibilities

Storage	Keep container tightly closed in a dry, well-ventilated place. The floor must be impermeable and form a collection basin so that in the event of accidental spillage, the liquid be able to escape beyond this area.
---------	---

SAFETY DATA SHEET

in accordance with Regulation (EC) No.

Coconut					
Version	Updated: January 17, 2025		Printed on: January 17, 2025		

- Poland (Journal of Laws of 2018, items 917, 1000, and 1076):

CAS	TWA:	STEL:	Ceiling:	Definition:	Criteria:
103-23-1	400 mg/m3				

8.2 Exposure control

Personal protective equipment, such as personal protective equipment

Pictogram(s) indicating the obligation to use personal protective equipment (PPE):

Personal protective equipment used should be clean and maintained in good condition. Store personal protective equipment in a clean place, away from the work area.

Do not eat, drink, or smoke when using. Remove contaminated clothing and wash it before reuse. Ensure adequate ventilation, especially in confined spaces.

8.2.1 Personal protective equipment

Eye/face protection	Avoid contamination of the eyes. Use eye protection designed to protect against liquid splashes. Before each use, wear safety glasses with side shields in accordance with ISO 16321. In case of increased risk, use a face shield . Prescription glasses do not provide protection. Contact lens wearers are advised to wear prescription glasses when working in conditions where they may be exposed to irritating effects of vapors. Rooms where the product is used continuously should be equipped with eye wash stations.
Hand protection	Wear suitable protective gloves in case of prolonged or repeated skin contact. Wear suitable gloves to protect against

Coconut

Version

Updated: January 17, 2025

Printed on: January 17, 2025

Body protection

chemicals, in accordance with EN ISO 374-1.

The choice of gloves depends on the application and the length of time they are used at the workplace.

Protective gloves should be selected according to the workplace, taking into account: other chemicals that may be used,

necessary protection against physical hazards (cuts, punctures, thermal protection), required ease of handling.

Recommended glove type:

- PVA (polyvinyl alcohol)
- Butyl rubber (isobutylene/isoprene copolymer)

Avoid skin contamination.

Wear appropriate protective clothing.

Type of appropriate protective clothing:

In case of heavy splashes, wear clothing that protects against liquid chemicals, with

impervious to liquids in

liquid form (type 3), compliant with EN14605/A1, to avoid any contact with the skin.

In case of splash hazard, use clothing providing limited protection against liquid chemicals (type 6),

compliant with EN13034/A1, to avoid any contact with the skin.

Personnel should wear work clothes that are washed regularly.

After contact with the product, wash all contaminated parts of the body.

SECTION G: Physical and chemical properties**G.1 Information on basic physical and chemical properties**

Physical state	non-sticky liquid
Form	No data available.
Color	Undefined
Taste	No data available.
Smell	Not specified.
Odor threshold	Not specified.
Flash point	> , 100°C.
Lower explosion limit	Not specified.

SAFETY DATA SHEET

in accordance with Regulation (EC) No.

Coconut

Version

Updated: January 17, 2025

Printed on: January 17, 2025

Upper explosion limit	Not specified.
Flammability	Not determined.
Particle size	No data available.
Oxidizing properties	No data available.
Auto-ignition temperature	Not applicable.
Decomposition temperature	Not applicable.
pH	Not applicable.
Vapor pressure	Not specified.
Density	< 1
Bulk density	No data available.
Solubility in water	Insoluble.
Solubility/solidification	Not determined.
Partition coefficient: n-octanol/water	Not determined.
Kinematic viscosity	$\nu < 7 \text{ mm}^2/\text{s}$ (40°C)
Relative vapour density	Not specified.
Evaporation rate	No data available.
Explosive properties	No data available.

G.2 Other information

No data available.

SECTION 10: Stability and reactivity

10.1 Reactivity

No data available.

10.2 Chemical stability

This mixture is stable under the storage and handling conditions recommended in Section 7.

10.3 Possibility of hazardous reactions

When exposed to high temperatures, the mixture may release hazardous decomposition products such as carbon monoxide and carbon dioxide, fumes, nitrogen oxide.

10.4 Conditions to avoid

No data available.

10.5 Incompatible materials

No data available.

Coconut

Version

Updated: January 17, 2025

Printed on: January 17, 2025

10.6 Hazardous decomposition products

The following products may be released/formed as a result of thermal decomposition:

- carbon monoxide (CO)
- carbon dioxide (CO₂)

SECTION 11: Toxicological information

Exposure to solvent vapors contained in the mixture above the indicated exposure limits may cause adverse health effects such as irritation of the mucous membranes and respiratory system, damage to the kidneys, liver, and central nervous system.

Symptoms include headache, numbness, dizziness, fatigue, and in extreme cases, loss of consciousness.

Prolonged or repeated contact with the mixture may cause removal of the natural lipid layer of the skin and cause non-allergic contact dermatitis and absorption through the epidermis.

It may cause irreversible damage to the eyes, i.e., damage to the tissue in the eye or serious physical deterioration of vision that is not completely reversible within an observation period of 21 days.

Typical effects of serious eye damage include corneal destruction, persistent corneal opacity, and iritis. May cause an allergic reaction following skin contact.

11.1 Information on hazard classes defined in Regulation (EC) No. 1272/2008**Acute toxicity**

PIPERONAL (CAS: 120-57-0)

Oral route: LD50= 2700 mg/kg body weight/day

OCTAHYDROCOUMARIN (CAS: 4430-31-3)

Oral route: LD50= 3900 mg/kg body weight/day

After application to the skin: LD50= 3500 mg/kg body weight/day

11.2 Information on other hazards**Endocrine disrupting properties**

Coconut

Version

Updated: January 17, 2025

Assessment

The mixture does not contain any substances assessed as endocrine disruptors and causing adverse health effects.

Further information

CIRC (International Agency for Research on Cancer) monograph(s):

CAS 128-37-0: IARC Group 3: Substances that cannot be classified as carcinogenic to humans.

CAS 91-64-5: IARC Group 3: Substances that cannot be classified as carcinogenic to humans.

CAS 103-23-1: IARC Group 3: Substances that cannot be classified as carcinogenic to humans.

SECTION 12: Ecological information

12.1 Toxicity

Ingredients:

No information on aquatic toxicity for this mixture is available.

12.2 Persistence and degradability

No data available.

12.3 Bioaccumulative potential

No data available.

12.4 Mobility in soil

No data available.

12.5 Results of PBT and vPvB assessment

No data available.

12.6 Endocrine disrupting properties

The mixture does not contain any substances that are considered to disrupt the endocrine system or have adverse effects on the environment.

Coconut

VersionUpdated: January 17, 2025Printed on: January 17, 2025

12.7 Other harmful effects

No data available.

SECTION 13: Waste treatment

Proper waste management of the mixture and/or container should be determined in accordance with the provisions of Directive 2008/98/EC.

13.1 Waste disposal methods

Do not discharge into drains or waterways.

Product	Empty the container completely. Keep the label(s) on container. Hand over to a licensed waste disposal company waste disposal.
Contaminated packaging	Waste management should be carried out without posing a threat to human health and without posing a threat to the environment, particularly to water, air, soil, fauna, and flora. Recycle or dispose of in accordance with applicable regulations by a licensed company that processes waste. Do not contaminate soil or water with waste, do not dispose of it in the environment.

Dispose of in accordance with local regulations.

SECTION 14: Transport information

Exempt from transport classification and labeling.

14.1 UN number

-

14.2 Proper shipping name UN

-

14.3 Transport hazard class(es)

-

-

14.5 Environmental hazards

-

14.6 Special precautions for users

-

14.7 Sea transport in bulk in accordance with IMO instruments

-

SECTION 15: Regulatory information

15.1 Legal provisions relating to safety, health, and environmental protection specific to substances or mixtures mixtures

- Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of December 18, 2006 on the Registration, Evaluation, Authorization

and restrictions (REACH) and establishing a European Chemicals Agency, amending

Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as

Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended.

- Regulation (EC) No. 1272/2008 of the European Parliament and of the Council of December 16, 2008 on classification, labeling, and

packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC and amending Regulation (EC) No

1907/2006, as amended.

- Directive 2008/98/EC of the European Parliament and of the Council of November 19, 2008, on on waste and repealing certain

directives.

- Act of February 25, 2011 on chemical substances and their mixtures (Journal of Laws of 2011 No. 63 item 322, as amended)

(REACH): <https://echa.europa.eu/substances-restricted-under-reach>.

Explosive precursors:

The mixture does not contain any substances subject to Regulation (EU) 2019/1148 on the marketing and use of

explosive precursors.

Special provisions:

No data available.

15.2 Chemical safety assessment

No data available.

SECTION 16: Other information

As we are not familiar with the user's working conditions, the information provided in this product safety data sheet is based on our current knowledge and national and European Community regulations.

The mixture should not be used for purposes other than those specified in Section 1 without first obtaining written instructions on how to handle it.

The user is always responsible for taking the necessary measures to comply with legal requirements.

The information provided in this safety data sheet should be considered as a description of the safety requirements associated with this mixture and not as a guarantee of its properties.

Full text of H-statements:

H302	Harmful if swallowed.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H319	Irritating to eyes.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long-term effects.
H411	Toxic to aquatic life with long-lasting effects.
