

SAFETY DATA SHEET

in accordance with Regulation (EC) No.

Green Apple

Version 9.0

Updated: January 22, 2025

Printed on: January 22, 2025

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	Green Apple
Product number	10000046
UFI	X740-R0KQ-T005-7GPE

1.2 Significant identified uses of the substance or mixture and uses advised against

Intended use	Fragrance composition
--------------	-----------------------

1.3 Details of the supplier of the safety data sheet

Company	TOP WOSK PACIOREK I WAŻ SPÓŁKA JAWNA
Address	Marszałkowska 58/15, 00-545 Warsaw
Phone	+48 534 541 490
Email	sklep@topwosk.pl

1.4 Emergency

112 (emergency number), 998 (fire brigade), 999 (ambulance)

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture (REGULATION (EC) No 1272/2008)

Skin sensitization, Category 1	Skin Sens. 1, H317
Hazardous to the environment - Chronic hazard, Category	Aquatic Chronic 2, H411

2.2 Label elements

Labeling (REGULATION (EC) No. 1272/2008)

Hazard pictograms

Signal word

WARNING

Hazard statements

H317 May cause an allergic skin reaction.

Green Apple

Version

Updated: January 22, 2025

Printed on: January 22, 2025

H411 Toxic to aquatic life with long-lasting effects.

Precautionary statements

Prevention:

P261 Avoid inhaling
dust/fume/gas/mist/vapors/spray.

P272 Do not take contaminated protective
clothing outside the workplace.

P273 Avoid release to the environment.

P280 Wear protective gloves/protective clothing
protective clothing/eye protection/face
protection/hearing protection/ ...

Response:

P302+ P352 IF ON SKIN:

Wash with plenty of water.

P321 Specific treatment: (see label or
additional information on the label).

P333 + P313 If skin irritation or rash occurs: Get
medical advice/attention.

P362+ P364 Take off contaminated clothing and
wash before reuse.

P391 Collect spillage.

Disposal:

P501 Dispose of contents/container to
in accordance with local, national, or international
regulations.

Hazardous ingredients must be listed on the label:

EC 202-983-3 ALPHA-HEXYLCINNAMALDEHYDE

EC 268-264-1 2,4-DIMETHYL-3-CYCLOHEXEN-1-CARBOXALDEHYDE

EC 266-034-5 TERPENES AND TERPENOIDS, LIMONENE FRACTION

EC 231-335-2 ALLYL PHENOXYACETATE

EC 204-409-7 Piperonal

EC 226-394-6 CITRAL

EC 260-709-8 DELTA-1-(2,6,6-TRIMETHYL-3-CYCLOHEXEN-1-YL)-2-BUTEN-1-ONE

2.3 Other hazards

This substance/mixture does not contain any components that are considered to be persistent, bioaccumulative, and toxic, or very persistent and very bioaccumulative (vPvB) at a level of 0.1% or above. bioaccumulation and toxic, or very persistent and very bioaccumulative (vPvB) at a level of 0.1% or above.

Ecological information: This substance/mixture does not contain any components considered having endocrine-disrupting properties according to Article 57(f) of REACH Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or higher.

Toxicological information: This substance/mixture does not contain any ingredients considered to have endocrine disrupting properties according to Article 57(f) of REACH Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or higher

The full text of the H statements referred to in this section can be found in section 16

SECTION 4: First aid measures

In general, if in doubt or if symptoms persist, always seek medical advice. NEVER induce vomiting in an unconscious person.

4.1 Description of first aid measures

In case of eye contamination

Hold eyelids open and rinse thoroughly with soft, clean water for 15 minutes.

SAFETY DATA SHEET

in accordance with Regulation (EC) No.

In case of skin contamination

Remove contaminated clothing and wash skin thoroughly with soap and water or a recognized cleaning agent.
Pay attention to the possibility of the product remaining between the skin and clothing, watches, shoes, etc.

If you experience any symptoms of an allergic reaction, seek a doctor.

If the contaminated area is extensive and/or skin damage, consult a doctor or transport the affected person to a hospital.

If swallowed

Do not give anything by mouth to the affected person.
If swallowed, if the amount is small (no more than one sip), rinse mouth with water and consult a doctor.
Ensure rest. Do not induce vomiting. Call a doctor immediately and show them the label.
In case of accidental ingestion, contact a doctor to assess the need for monitoring and further symptomatic treatment in hospital conditions. Show the label.

4.2 Most important acute and delayed symptoms and effects of exposure

No data available.

4.3 Indications for any immediate medical attention and special treatment of the victim

No data available.

SECTION 5: Firefighting measures

5.1 Firefighting media

Suitable extinguishing media

sprayed water or water mist

Unsuitable extinguishing media

water jet

5.2 Special hazards arising from the substance or mixture

A fire often produces thick, black smoke. Exposure to decomposition products may be hazardous to health.

Do not breathe smoke.

The following combustion products may be produced:

- carbon monoxide (CO)

- carbon dioxide (CO₂)

Green Apple

Version

Updated: January 22, 2025

Printed on: January 22, 2025

5.3 Information for the fire department

No data available.

SECTION 6: Accidental release measures

6.1 Individual precautions, protective equipment, and emergency procedures

Read the safety precautions listed in sections 7 and 8.

For persons other than rescue workers

Avoid contamination of skin and eyes.

For emergency responders

Persons carrying out the intervention must be equipped with appropriate personal protective equipment (see section 8).

6.2 Environmental precautions

Contain and collect spilled or leaked material using non-combustible absorbent material such as sand, earth, vermiculite, diatomaceous earth, in drums for disposal.

Prevent material from entering sewers or waterways.

6.3 Methods and materials for preventing the spread of contamination and for removing contamination

Cleaning with detergents is recommended; do not use solvents.

6.4 References to other sections

No data available.

SECTION 7: Handling and storage of substances and mixtures

Recommendations for storage rooms also apply to workshops where the mixture is used.

Persons who have ever experienced skin sensitization should not come into contact with this mixture.

7.1 Precautions for safe handling

Precautions

Wash hands after each use.

Remove contaminated clothing and wash it before reuse.

Ensure adequate ventilation, especially in enclosed

SAFETY DATA SHEET

in accordance with Regulation (EC) No.

Green Apple

Version

Updated: January 22, 2025

Fire prevention

premises.

Use in well-ventilated areas.

Keep out of reach of unauthorized personnel.

Recommended equipment and procedures

Personal protective equipment - see section 8.

Follow the precautions on the label and industrial safety regulations.

Open containers should be closed carefully and store in an upright position.

Prohibited equipment and methods of handling

In rooms where the mixture is used, do not

No smoking, eating, or drinking.

7.2 Conditions for safe storage, including any incompatibilities

Storage

Keep container tightly closed in a dry, well-ventilated place.

The floor must be impermeable and form a collection basin so that in the event of accidental spillage, the liquid be able to escape outside this area.

Packaging

Always store in packaging made of the same the same material as the original packaging.

7.3 Specific end use(s)

No data available.

SECTION 8: Exposure controls/personal protection

8.2 Exposure control

Personal protective equipment, such as personal protective equipment

Pictogram(s) indicating the obligation to use personal protective equipment (PPE):

Personal protective equipment must be clean and in good condition. Store personal protective equipment in a clean place, away from the work area.

Do not eat, drink or smoke when using. Remove contaminated clothing and wash it before reuse. Ensure adequate ventilation, especially in enclosed spaces.

8.2.1 Personal protective equipment

Eye/face protection	Avoid contamination of the eyes. Use eye protection designed to protect against splashing liquids. Before each use, wear safety glasses that meet ISO 16321.
Hand protection	Use suitable chemical-resistant gloves in accordance with EN ISO 374-1. The choice of gloves depends on the application and the length of use at the workplace. Protective gloves should be selected according to the workstation, taking into account: other chemicals that may be used, necessary protection against physical hazards (cut, puncture, thermal protection), required ease of handling. Recommended glove type: - PVA (polyvinyl alcohol) - Butyl rubber (isobutylene/isoprene copolymer)
Body protection	Avoid skin contamination. Wear appropriate protective clothing. Type of suitable protective clothing: In case of heavy splashes, wear protective clothing against liquid chemicals, with connections

Green Apple

liquid-impermeable

liquid (type 3), in accordance with EN14605/A1, to prevent any contact with the skin.

In case of splashing hazard, use clothing providing limited protection against liquid chemicals (type 6), in accordance with EN13034/A1, to prevent any contact with the skin.

Personnel must wear work clothing that is washed regularly. After contact with the product, wash all contaminated parts of the body.

SECTION G: Physical and chemical properties**9.1 Information on basic physical and chemical properties**

Physical state	non-sticky liquid
Form	No data available.
Color	Undefined
Taste	No data available.
Odor	Not specified.
Odor threshold	Not specified.
Flash point	76.00 °C
Lower explosion limit	Not specified.
Upper explosion limit	Not specified.
Flammability	not determined.
Particle size	No data available.
Oxidizing properties	No data available.
Auto-ignition temperature	Not applicable.
Decomposition temperature	Not applicable.
pH	Not specified.
Vapor pressure	Not specified.
Density	< 1
Bulk density	No data available.
Solubility in water	Insoluble.
Solubility/solidification	Not specified.
Partition coefficient: n-octanol/water	not specified.
Kinematic viscosity	Not determined.
Relative vapor density	Not determined.
Evaporation rate	No data available.
Explosive properties	No data available.

9.2 Other

No data available.

SECTION 10: Stability and reactivity

10.1 Reactivity

No data available.

10.2 Chemical stability

This mixture is stable under the storage and handling conditions recommended in Section 7.

10.3 Possibility of hazardous reactions

When exposed to high temperatures, the mixture may release hazardous decomposition products such as carbon monoxide and carbon dioxide, fumes, nitrogen oxide.

10.4 Conditions to avoid

No data available.

10.5 Incompatible materials

No data available.

10.6 Hazardous decomposition products

The following products may be released/formed as a result of thermal decomposition:

- carbon monoxide (CO)
- carbon dioxide (CO₂)

SECTION 11: Toxicological information

Exposure to solvent vapors contained in the mixture above the indicated exposure limits may cause adverse health effects such as irritation of the mucous membranes and respiratory system, damage to the kidneys, liver, and central nervous system.

Symptoms include headache, numbness, dizziness, fatigue and, in extreme cases, loss of consciousness.

Green Apple

Version

Updated: January 22, 2025

CAS 103-23-1 : IARC Group 3 : Substances not classifiable as carcinogenic to humans.

SECTION 12: Ecological information

This product is toxic to aquatic organisms, causing long-term adverse effects. Do not allow the product to enter sewage systems or waterways.

12.1 Toxicity

No information on toxicity to the aquatic environment is available for this mixture.

12.2 Persistence and degradability

No data available.

12.3 Bioaccumulation

No data available.

12.4 Mobility in soil

No data available.

12.5 Results of PBT and vPvB assessment

No data available.

12.6 Endocrine disrupting properties

The mixture does not contain any substances that are considered to disrupt the endocrine system and cause adverse effects on the environment.

12.7 Other adverse effects

No data available.

SECTION 13: Disposal considerations

Proper waste management of the mixture and/or container should be determined in accordance with the provisions of Directive 2008/98/EC.

13.1 Waste disposal methods

Do not discharge into drains or waterways.

Product	Waste management should be carried out without endangering human health and without endangering the environment, in particular to water, air, soil, fauna, and flora. Recycle or dispose of in accordance with applicable regulations by a licensed company,

Explosive precursors:

The mixture does not contain any substances subject to Regulation (EU) 2019/1148 in on the marketing and use of of explosives precursors.

Special provisions:

No data available.

15.2 Chemical safety assessment

No data available.

SECTION 16: Other information

Since we are not familiar with the user's working conditions, the information provided in this product safety data sheet is based on our current knowledge and national and European Community regulations.

The mixture should not be used for any other purpose than those indicated in Section 1 without first obtaining written instructions on its handling.

The user is always responsible for taking the necessary measures to comply with legal requirements.

The information provided in this safety data sheet should be regarded as a description of the safety requirements associated with this mixture and not as a guarantee of its properties.

Full text of H statements:

H226	Flammable liquid and vapor.
H302	Harmful if swallowed.
H304	Swallowing and inhalation may cause death.
H312	Harmful in contact with skin.
H315	Irritating to skin.
H317	May cause an allergic skin reaction.
H319	Irritating to eyes.
H330	Inhalation may be fatal.
H336	May cause drowsiness or dizziness.
H400	It is highly toxic to aquatic organisms.
H410	Very toxic to aquatic organisms, causing long-lasting effects.
