### 6.2 Environmental precautions

Prevent penetration into the ground or sewage system. Causes irritation to mucous membranes.

### 6.3 Methods and materials for preventing the spread of contamination and for decontamination

Collect liquids using binding materials (sand, diatomaceous earth, universal binding agent, acid neutralizer) and deliver it in closed containers to a disposal site.

### 6.4 References to other sections

-

## SECTION 7: Handling and storage of substances and mixtures

### 7.1 Precautions for safe handling

Instructions for safe handling

Avoid exposure - read the instructions before use. Do not inhale vapors. Avoid contact with skin, eyes, and clothing. Do not eat, drink, smoke, or use snuff at the workplace. Ensure that all waste is collected and treated in a waste treatment plant. Personal protective equipment: see section 8.

### 7.2 Conditions for safe storage, including any incompatibilities

Packaging and storage requirements

Keep containers tightly closed in a cool, well-ventilated place. Protect from light. Do not store together with foodstuffs.

**8.2.1 Personal protective equipment**

Respiratory protection	Avoid exceeding the maximum concentration at the workplace NDS. If the maximum permissible concentration at the workplace (NDS) is exceeded, wear a filter mask. Filter type ABEK according to EN 14387. Ensure good ventilation of work areas and/or install ventilation equipment.
Hand protection	Penetration time (maximum time) Short-term, accidental skin contact: Breakthrough time 10 min For prolonged or repeated skin contact: If direct contact with the chemical substance is expected during work with the chemical substance is expected during work, gloves compliant with EN 16523-1/ASTM F739 (or an equivalent local standard) with a breakthrough time at least equal to the contact time. Penetration time Follow the glove manufacturer's instructions regarding penetration and breakthrough resistance .
Eye protection	Use safety glasses that meet EN 166/ANSI Z87.1 or equivalent local standards.
Body protection	EN 143. For larger jobs: appropriate face protection, shoes, and rubber apron.
Hygiene and protective measures	Wash hands before breaks and immediately after handling the product. Dirty clothing must be washed before putting them back on.
