

Mango

Version 7.0

Updated: June 5, 2023

Printed on: June 5, 2023

SECTION 1: Identification of the substance/mixture and of the company

1.1 Product identifier

Trade name	Mango
Product number	10000037
UFI	NU20-NOJC-W008-N1CD

1.2 Relevant identified uses of the substance or mixture and uses advised against

Intended use	Fragrance composition
--------------	-----------------------

1.3 Details of the supplier of the safety data sheet

Company	TOP WOSK PACIOREK I WAŻ SPÓŁKA JAWNA
Address	Marszałkowska 58/15, 00-545 Warsaw
Phone	+48 534 541 490
E-mail	sklep@topwosk.pl

1.4 Emergency phone number

112 (emergency number), 998 (fire department), 999 (ambulance)

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture (REGULATION (EC) No 1272/2008)

Eye irritation, Category 2	Eye Irrit. 2, H319
Skin sensitization, Category 1	Skin Sens. 1, H317
Hazardous to the aquatic environment - Chronic hazard, Category 3	Aquatic Chronic 3, H412

2.2 Label elements

Labeling (REGULATION (EC) No. 1272/2008)

Pictograms indicating the type of hazard

Signal word

CAUTION

Mango

Version

Updated: June 5, 2023

Printed on: June 5, 2023

Hazard statements

H317 May cause an allergic skin reaction. H319

Causes serious eye irritation.

Precautionary statements

H412 Harmful to aquatic life,
causing long-term adverse effects.

Prevention:

P261 Avoid breathing
dust/fume/gas/mist/vapors/spray. P264 Wash
hands thoroughly after handling.
P272 Do not take contaminated protective clothing
outside the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing
protective clothing/eye protection/face
protection/hearing protection/ ...

Response:

P302+ P352 IF ON SKIN:
Wash with plenty of water.
P305 + P351 + P338 IF
EYES: Rinse cautiously with water for several
minutes. Remove contact lenses, if present and easy
to do. Continue rinsing.
P321 Apply specific treatment (see label for more
details).
P333 + P313 If skin irritation or rash occurs: Get
medical advice/attention.
P337+ P313 If eye irritation persists: Get
medical advice/attention.
P362+ P364 Take off and wash contaminated clothing
before reuse.

Disposal:

P501 Dispose of contents/container to collection points

Mango

Version

Updated: June 5, 2023

Printed on: 05.06.2023

Waste collection in accordance with local, national, or international regulations.

Hazardous ingredients must be listed on the label:

EC 266-034-5 TERPENES AND TERPENOIDS, LIMONENE FRACTION

EC 203-375-0 DL-CITRONELLOL

EC 203-377-1 GERANIOL

EC 201-134-4 LINALOOL

2.3 Other hazards

This substance/mixture does not contain any ingredients considered to be persistent, bioaccumulative bioaccumulation and toxic, or very persistent and very bioaccumulative (vPvB) at a level of 0.1% or above.

Ecological information: This substance/mixture does not contain any components considered to be endocrine disrupting properties according to Article 57(f) of REACH Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or above.

Toxicological information: This substance/mixture does not contain ingredients considered to have endocrine disrupting properties according to Article 57(f) of REACH Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or higher.

SECTION 3: Ingredients/information on ingredients

3.2 Mixtures

The full text of the H statements mentioned in this section can be found in section 16.

SECTION 4: First aid measures

In general, if in doubt or if symptoms persist, always call a doctor. NEVER induce vomiting in an unconscious person.

4.1 Description of first aid measures

In case of eye contamination	Hold eyelids open and rinse thoroughly with soft, clean water for 15 minutes. If you experience redness, pain, or blurred vision, consult an ophthalmologist.
In case of skin contamination	Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognized cleaning agent. Be aware that the product may remain between the skin and clothing, watches, shoes, etc. If symptoms of an allergic reaction occur, seek a doctor's advice. If the contaminated area is extensive and/or skin damage, consult a doctor or transport the affected person to a hospital.
If swallowed	Do not give the victim anything by mouth. If swallowed, if the amount is small (no more than one sip), rinse the mouth with water and consult a doctor. Ensure rest. Do not induce vomiting. Call a doctor immediately and show them the label. If accidentally swallowed, contact a doctor to assess the need for monitoring and further symptomatic treatment in hospital conditions. Show the label.

4.2 Most important acute and delayed symptoms and effects of exposure

No data available.

Mango

Version

Updated: June 5, 2023

Printed on: June 5, 2023

4.3 Indications for any immediate medical attention and special treatment of the victim

No data available.

SECTION 5: Firefighting measures

The product is not flammable.

5.1 Extinguishing media

Suitable extinguishing media	sprayed water or water mist
Unsuitable extinguishing agents	water jet

5.2 Special hazards arising from the substance or mixture

Fire often produces dense, black smoke. Exposure to decomposition products may be hazardous to health.

Do not inhale smoke.

The following combustion products may be formed:

- carbon monoxide (CO)
- carbon dioxide (CO₂)

5.3 Information for firefighters

No data available.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment, and emergency procedures

Familiarize yourself with the safety measures listed in points 7 and 8.

For non-rescuers

Avoid contamination of skin and eyes.

For rescuers

Persons carrying out the intervention must be equipped with appropriate personal protective equipment (see section 8).

Mango

Version

Updated: June 5, 2023

Printed on: June 5, 2023

6.2 Environmental precautions

Contain and collect spills or spilled material with non-combustible absorbent material such as sand, earth, vermiculite, diatomaceous earth, in barrels for disposal.

Prevent material from entering sewers or waterways.

6.3 Methods and materials for preventing the spread of contamination and for removing contamination

Cleaning with detergents is recommended; do not use solvents.

6.4 References to other sections

No data available.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Precautions	Wash hands after each use. Remove contaminated clothing and wash it before reuse. Ensure adequate ventilation, especially in confined spaces. rooms.
Fire prevention	Use in well-ventilated areas. Keep out of reach of unauthorized personnel.
Recommended equipment and procedures	Personal protective equipment - see section 8. Follow the precautions on the label and industrial safety regulations. Avoid contact of the mixture with skin and eyes. Open containers should be closed carefully and stored in an upright position.
Prohibited equipment and procedures	In rooms where the mixture is used, smoking, eating, or drinking.

7.2 Conditions for safe storage, including any incompatibilities

Storage	Keep container tightly closed in a dry, well-ventilated place. The floor must be impermeable and form a collection basin so that in the event of accidental spillage, the liquid be able to escape beyond this area.
Packaging	Always store in packaging made of the same material as the original. same material as the original.

SAFETY DATA SHEET

in accordance with Regulation (EC) No.

8.2.1 Personal protective equipment

Eye/face protection

Avoid contamination of the eyes.
Use eye protection designed to protect against liquid splashes.
Before each use, wear safety glasses with side shields in accordance with PN-EN 166.
In case of increased risk, use a face shield
.
Prescription glasses do not provide protection.
Contact lens wearers are advised to wear prescription glasses when working in conditions where they may be exposed to irritating effects of vapors.
Rooms where the product is used continuously should be equipped with eye wash stations.

Hand protection

Use suitable chemical-resistant gloves that comply with EN ISO 374-1.
The choice of gloves depends on the application and the length of use at the workstation.
Protective gloves should be selected according to the workstation, taking into account: other chemicals that may be used,
necessary protection against physical hazards (cuts, punctures, thermal protection), required ease of handling.
Recommended glove type:
- PVA (polyvinyl alcohol)
- Butyl rubber (isobutylene/isoprene copolymer)

Body protection.

Avoid skin contamination.
Wear appropriate protective clothing.
Type of suitable protective clothing:
In case of heavy splashes, use clothing that protects against liquid chemicals, with impervious to liquids in liquid (type 3), compliant with EN14605/A1, to avoid any contact with the skin.
In case of splash hazard, use clothing providing limited protection against liquid chemicals (type 6), compliant with EN13034/A1, to avoid any contact with the skin.
Personnel should wear work clothes that are washed regularly. After contact with the product, wash all

Contaminated body parts.

SECTION G: Physical and chemical properties

G.1 Information on basic physical and chemical properties

Physical state	non-sticky liquid
Form	No data available.
Color	Undefined
Taste	No data available.
Smell	No data available.
Odor threshold	Not specified.
Flash point	77.00 °C.
Lower explosion limit	Not specified.
Upper explosion limit	Not specified.
Flammability	not determined.
Particle size	No data available.
Oxidizing properties	No data available.
Auto-ignition temperature	Not applicable.
Decomposition temperature	Not applicable.
pH	Not determined.
Vapor pressure	Not specified.
Density	< 1
Bulk density	No data available.
Solubility in water	Insoluble.
Solubility/solidification	Not specified.
Partition coefficient: n-octanol/water	not specified.
Kinematic viscosity	$v < 7 \text{ mm}^2/\text{s}$ (40°C)
Relative vapour density	No data available.
Evaporation rate	No data available.
Explosive properties	No data available.

G.2 Other information

No data available.

SECTION 10: Stability and reactivity

10.1 Reactivity

No data available.

Mango

Version

Updated: June 5, 2023

Printed on: June 5, 2023

10.2 Chemical stability

This mixture is stable under the storage and handling conditions recommended in section 7.10.3

Possibility of hazardous reactions

When exposed to high temperatures, the mixture may release hazardous decomposition products such as carbon monoxide and carbon dioxide, fumes, nitrogen oxide.

10.4 Conditions to avoid

No data available.

10.5 Incompatible materials

No data available.

10.6 Hazardous decomposition products

The following products may be released/formed as a result of thermal decomposition:

- carbon monoxide (CO)
- carbon dioxide (CO₂)

SECTION 11: Toxicological information

Exposure to solvent vapors contained in the mixture above the indicated exposure limits may cause

adverse health effects such as irritation of the mucous membranes and respiratory system, damage to the kidneys, liver, and central nervous system. Symptoms include headaches, numbness, dizziness, fatigue, and in extreme cases, loss of consciousness.

Prolonged or repeated contact with the mixture may remove the natural lipid layer of the skin and cause non-allergic contact dermatitis and absorption through the epidermis.

May cause reversible eye damage, i.e., eye irritation that is completely reversible within a 21-day observation period.

Splashes in the eyes may cause irritation and reversible damage. May cause an allergic reaction following skin contact.

Mango

Version

Updated: June 5, 2023

11.1 Information on hazard classes defined in Regulation (EC) No. 1272/2008

Acute toxicity

LINALOOL (CAS: 78-70-6)	Oral: LD50= ,2790 mg/kg body weight/day
GERANIOL (CAS: 106-24-1)	Oral route: LD50= 3600 mg/kg body weight/day
DL-CITRONELLOL (CAS: 106-22-9)	Oral route: LD50= 3450 mg/kg body weight/day After application to the skin: LD50= 2650 mg/kg body weight/day
ETHYL MALTOL (CAS: 4940-11-8)	Oral route: LD50= 1200 mg/kg body weight/day
DIPHENYL ETHER (CAS: 101-84-8)	Oral route: LD50= 2830 mg/kg body weight/day

11.2 Information on other hazards

CIRC (International Agency for Research on Cancer) monograph(s):

CAS 128-37-0: IARC Group 3: Substances that cannot be classified as carcinogenic to humans.

CAS 103-23-1: IARC Group 3: Substances that cannot be classified as carcinogenic to humans.

SECTION 12: Ecological information

Harmful to aquatic organisms, causing long-term adverse effects. Do not allow product to enter sewage systems or waterways.

12.1 Toxicity

Ingredients:

No information on aquatic toxicity for this mixture is available.

12.2 Persistence and degradability

No data available.

12.3 Bioaccumulative potential

No data available.

12.4 Mobility in soil

No data available.

12.5 Results of PBT and vPvB assessment

No data available.

12.6 Endocrine disrupting properties

No data available.

SAFETY DATA SHEET

in accordance with Regulation (EC) No.

12.7 Other harmful effects

No data available.

SECTION 13: Waste treatment

Proper waste management of the mixture and/or container should be determined in accordance with the provisions of Directive 2008/98/EC.

13.1 Waste disposal methods

Product	Empty the container completely. Keep the label(s) on container. Hand over to a licensed waste treatment company waste processing.
Contaminated packaging	Waste management should be carried out without endangering human health and without endangering the environment, in particular water, air, soil, fauna, and flora. Recycle or dispose of in accordance with applicable regulations by a licensed waste processing company. Do not contaminate soil or water with waste, do not dispose of it in the environment.

SECTION 14: Transport information

Exempt from transport classification and labeling.

14.1 UN number (UN number)

-

14.2 Proper shipping name UN

-

14.3 Transport hazard class(es)

-

14.4 Packing group

-

15.2 Chemical safety assessment

No data available.

SECTION 16: Other information

As we are not familiar with the user's working conditions, the information provided in this product safety data sheet is based on our current knowledge and national and European Community regulations.

The mixture should not be used for purposes other than those specified in Section 1 without first obtaining written instructions on how to handle it.

The user is always responsible for taking the necessary measures to comply with legal requirements.

The information provided in this safety data sheet should be considered as a description of the safety requirements associated with this mixture and not as a guarantee of its properties.
