

## Rose Lady

Version 6.0

Updated: May 9, 2023

Printed on: May 9, 2023

## SECTION 1: Identification of the substance/mixture and of the company

### 1.1 Product identifier

Trade name	Rose Lady
Product number	10000041
UFI	0M30-60RX-N00Q-M3KY

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Intended use	Fragrance composition
--------------	-----------------------

### 1.3 Details of the supplier of the safety data sheet

Company	TOP WOSK PACIOREK I WAŻ SPÓŁKA JAWNA
Address	Marszałkowska 58/15, 00-545 Warsaw
Phone	+48 534 541 490
E	sklep@topwosk.pl

### 1.4 Emergency phone number

112 (emergency number), 998 (fire department), 999 (ambulance)

## SECTION 2: Hazard identification

### 2.1 Classification of the substance or mixture (REGULATION (EC) No 1272/2008)

Skin irritation, Category 2	Skin Irrit. 2, H315
Eye irritation, Category 2	Eye Irrit. 2, H319
Skin sensitization, Category 1	Skin Sens. 1, H317
Hazardous to the aquatic environment - Chronic hazard, Category 2	Aquatic Chronic 2, H411

### 2.2 Label elements

#### Labeling (REGULATION (EC) No. 1272/2008)

Pictograms indicating the type of hazard

## Rose Lady

Version

Updated: May 9, 2023

Printed on: May 9, 2023

## Warning slogan

## Hazard statements

## CAUTION

H315 Causes skin irritation.

H317 May cause an allergic skin reaction. H319

Causes serious eye irritation.

H411 Toxic to aquatic life with long-lasting effects.

## Precautionary statements

## Prevention:

P261 Avoid breathing

dust/fume/gas/mist/vapors/spray. P264 Wash hands thoroughly after handling.

P272 Do not take contaminated protective clothing outside the workplace.

P273 Avoid release to the environment.

P280 Wear protective gloves/protective clothing protective clothing/eye protection/face protection/hearing protection/ ...

## Response:

P302+ P352 IF ON SKIN:

Wash with plenty of water.

P305 + P351 + P338 IF

EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P321 Apply specific treatment (see label for more details).

P332 + P313 If skin irritation occurs: Get medical advice/attention.

P333 + P313 If skin irritation or rash occurs: Get medical advice/attention.

P337+ P313 If eye irritation persists: Get advice/seek medical attention.

P362+ P364 Take off and wash contaminated clothing before reuse.

P391 Collect spillage.

## Disposal:

P501 Dispose of contents/ container to in accordance with local national or international regulations.

## Rose Lady

Version

Updated: May 9, 2023

Printed on: 09.05.2023

Hazardous ingredients must be listed on the label:

EC 201-134-4 LINALOOL

EC 259-174-3 1-(1,2,3,4,5,6,7,8-OCTAHYDRO-2,3,8,8-TETRAMETHYL-2-NAPHTHALENYL)ETHANONE

EC 227-813-5 D-LIMONENE

EC 204-116-4 LINALYL ACETATE

EC 204-262-9 BENZYL SALICYLATE

EC 251-020-3 ACETYL CEDRENE

EC 243-384-7 CEDROL METHYL ETHER

EC 266-797-4 CIS-3-HEXENYL METHYL CARBONATE

EC 205-341-0 DL-LIMONENE

EC 260-709-8 DELTA-1-(2,6,6-TRIMETHYL-3-CYCLOHEXEN-1-YL)-2-BUTEN-1-ONE

### 2.3 Other hazards

This substance/mixture does not contain any components that are considered to be persistent, bioaccumulative

bioaccumulation and toxic, or very persistent and very bioaccumulative (vPvB) at a level of 0.1% or above.

Ecological information: This substance/mixture does not contain any components considered endocrine disrupting properties according to Article 57(f) of REACH Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or above.

Toxicological information: This substance/mixture does not contain ingredients considered to have endocrine disrupting properties according to Article 57(f) of REACH Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or higher.

The full text of the H statements cited in this section can be found in section 16

## SECTION 4: First aid measures

In general, if in doubt or if symptoms persist, always call a doctor. NEVER induce vomiting in an unconscious person.

### 4.1 Description of first aid measures

In case of eye contamination

Hold eyelids open and rinse thoroughly with soft, clean water for 15 minutes.

If redness, pain, or vision problems occur, consult an ophthalmologist.

In case of skin contamination

Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognized cleaning agent.

Pay attention to the possibility of the product remaining between skin and clothing, watches, shoes, etc. In the event of

## Rose Lady

Version

Updated: May 9, 2023

If swallowed

If you experience symptoms of an allergic reaction, seek medical advice.

If the affected area is extensive and/or there is skin damage, consult a doctor or transport the affected person to a hospital.

Do not give anything by mouth to the affected person.

If swallowed, if the amount is small (no more than one sip), rinse mouth with water and consult a doctor.

Provide conditions for rest. Do not induce vomiting. Call a doctor immediately and show them the label.

If accidentally swallowed, contact a doctor to assess the need for monitoring and further symptomatic treatment in hospital conditions. Show the label.

### 4.2 Most important acute and delayed symptoms and effects of exposure

No data available.

### 4.3 Indications for any immediate medical attention and special treatment of the victim

No data available.

---

## SECTION 5: Firefighting measures

The product is not flammable.

### 5.1 Extinguishing media

Suitable extinguishing media

water spray or water mist

Unsuitable extinguishing media

water jet

### 5.2 Special hazards arising from the substance or mixture

A fire often produces thick, black smoke. Exposure to decomposition products can be hazardous to health. Do not inhale smoke.

The following combustion products may be produced:

- carbon monoxide (CO)

- carbon dioxide (CO<sub>2</sub>)

## Rose Lady

Version

Updated: May 9, 2023

Printed on: May 9, 2023

### 5.3 Information for the fire department

No data available.

---

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment, and emergency procedures

Refer to the safety measures listed in sections 7 and 8.

#### For non-emergency responders

Avoid contamination of skin and eyes.

#### For first responders

Persons carrying out the intervention should be equipped with appropriate personal protective equipment  
(see section 8).

### 6.2 Environmental precautions

Contain and collect spilled or leaked material with non-combustible absorbent material such as sand, earth, vermiculite, diatomaceous earth, in barrels for disposal.

Prevent material from entering sewers or waterways.

### 6.3 Methods and materials for preventing the spread of contamination and for decontamination

Cleaning with detergents is recommended; do not use solvents.

### 6.4 References to other sections

No data available.

---

## SECTION 7: Handling and storage of substances and mixtures

Recommendations for storage rooms also apply to workshops where the mixture is used.

People who have ever experienced skin allergies should not come into contact with this mixture.

### 7.1 Precautions for safe handling

Precautions

Wash hands after each use.  
Remove contaminated clothing and wash it before reuse.  
Ensure adequate ventilation, especially in confined spaces.

Fire prevention	rooms. Use in well-ventilated areas. Keep out of reach of unauthorized personnel.
Recommended equipment and procedures	Personal protective equipment - see section 8. Follow the precautions on the label and industrial safety regulations. Avoid contact of the mixture with skin and eyes. Open containers should be closed carefully and store in an upright position.
Prohibited equipment and procedures	Do not smoke, eat, or drink in areas where the mixture is used. smoking, eating, or drinking.

7.2 Conditions for safe storage, including any incompatibilities

Storage	Keep container tightly closed in a dry, well-ventilated place. The floor must be impermeable and form a collection basin so that in the event of accidental spillage, the liquid be able to escape beyond this area.
Packaging	Always store in packaging made of the same the same material as the original.

7.3 Specific end use(s)

No data available.

SECTION 8: Exposure controls/personal protective equipment

8.1 Control parameters

Occupational exposure limits:

- Germany - AGW (BAuA - TRGS 900, 02/2022):

CAS	VME:	VME:	Exceedance	Comments
5989-27-5	5 ppm 28 mg/m3			4(II)

- Poland (Journal of Laws of 2018, items 917, 1000, and 1076):

## Rose Lady

Version

CAS	TWA :	STEL:	Ceiling:	Definition:	Criteria:
103-23-1	400 mg/m3				

## 8.2 Exposure control

**Personal protective equipment, such as personal protective equipment**

Pictogram(s) indicating the obligation to use personal protective equipment (PPE):

Personal protective equipment used should be clean and maintained in good condition.

Store personal protective equipment in a clean place, away from the work area.

Do not eat, drink, or smoke when using. Remove contaminated clothing and wash it before reuse. Ensure adequate ventilation, especially in confined spaces.

## 8.2.1 Personal protective equipment

## Eye/face protection

Avoid contamination of the eyes.

Use eye protection designed to protect against liquid splashes.

Before each use, wear safety glasses with side shields in accordance with PN-EN 166.

In case of increased risk, use a face shield

.

Prescription glasses do not provide protection.

Contact lens wearers are advised to wear prescription glasses when working in conditions where they may be exposed to irritating effects of vapors.

Rooms where the product is used continuously should be equipped with eye wash stations.

## Hand protection

Wear suitable gloves to protect against chemicals, in accordance with EN ISO 374-1.

## Rose Lady

Version

Updated: May 9, 2023

Printed on: May 9, 2023

## Body protection

The choice of gloves depends on the application and the length of time they are used at the workplace.

Protective gloves should be selected according to the workplace, taking into account: other chemicals that may be used,

necessary protection against physical hazards (cuts, punctures, thermal protection), required ease of handling.

Recommended glove type:

- PVA (polyvinyl alcohol)
- Butyl rubber (isobutylene/isoprene copolymer)

Avoid skin contamination.

Wear appropriate protective clothing.

Type of suitable protective clothing:

In case of heavy splashes, use clothing that protects against liquid chemicals, with liquid-tight connections in liquid form (type 3), in accordance with EN14605/A1, to avoid any contact with the skin.

In case of splash hazard, use clothing that provides limited protection against liquid chemicals (type 6), compliant with EN13034/A1, to avoid any contact with the skin.

Personnel should wear work clothes that are washed regularly. After contact with the product, wash all contaminated parts of the body.

---

Explosive properties	No data available.

### G.2 Other information

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

No data available.

### 10.2 Chemical stability

This mixture is stable under the storage and handling conditions recommended in Section 7.

### 10.3 Possibility of hazardous reactions

When exposed to high temperatures, the mixture may release hazardous decomposition products such as carbon monoxide and carbon dioxide, fumes, nitrogen oxide.

### 10.4 Conditions to avoid

No data available.

### 10.5 Incompatible materials

No data available.

## Rose Lady

Version

Updated: May 9, 2023

Printed on: May 9, 2023

**10.6 Hazardous decomposition products**

The following products may be released/formed as a result of thermal decomposition:

- carbon monoxide (CO)
- carbon dioxide (CO<sub>2</sub>)

**SECTION 11: Toxicological information**

Exposure to solvent vapors contained in the mixture above the indicated exposure limits may cause adverse health effects such as irritation of the mucous membranes and respiratory system, damage to the kidneys, liver, and central nervous system.

Symptoms include headache, numbness, dizziness, fatigue, and, in extreme cases, loss of consciousness.

It may cause reversible skin damage, i.e., dermatitis or the formation of erythema, scabs, or edema, as a result of exposure for up to four hours.

Prolonged or repeated contact with the mixture may cause removal of the natural lipid layer of the skin and cause non-allergic contact dermatitis and absorption through the epidermis.

May cause reversible eye damage, i.e., eye irritation that is completely reversible within a 21-day observation period.

Splashes in the eyes may cause irritation and reversible damage. May cause an allergic reaction following skin contact.

**11.1 Information on hazard classes defined in Regulation (EC) No 1272/2008****Acute toxicity**

## SECTION 12: Ecological information

This product is toxic to aquatic organisms, causing long-term changes. Do

not allow the product to enter sewage systems or waterways.

### 12.1 Toxicity

No information on toxicity to the aquatic environment is available for this mixture.

### 12.2 Persistence and degradability

No data available.

### 12.3 Bioaccumulation

No data available.

Rose Lady

12.4 Mobility in soil

No data available.

12.5 Results of PBT and vPvB assessment

No data available.

12.6 Endocrine disrupting properties

No data available.

12.7 Other harmful effects

No data available.

SECTION 13: Waste treatment

Proper waste management of the mixture and/or container should be determined in accordance with the provisions of Directive 2008/98/EC.

13.1 Waste disposal methods

Do not discharge into drains or waterways.

Product	Empty the container completely. Keep the label(s) on container. Hand over to a licensed waste disposal company waste disposal.
Contaminated packaging	Waste management should be carried out without endangering human health and without endangering the environment, in particular water, air, soil, fauna, and flora. Recycle or dispose of in accordance with applicable regulations by a licensed waste processing company. Do not contaminate soil or water with waste, do not dispose of them in the environment.

SECTION 14: Transport information

Transport the product in accordance with the provisions of ADR for road transport, RID for rail, IMDG for sea, and ICAO/IATA for

air transport (ADR 2023 - IMDG 2020 [40-20] - ICAO/IATA 2023 [64]).
