DANGER

Hazard statements

H304 May be fatal if swallowed and enters airways.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

H411 Toxic to aquatic life with causing long-term adverse effects.

Precautionary statements

Prevention:

P261 Avoid breathing dust/fume/gas/mist/vapors/spray. P264 Wash hands thoroughly after handling.
P272 Do not take contaminated protective clothing outside the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing protective/eye protection/face protection/hearing protection/ ...

Response:

P301+ P310 IF SWALLOWED:

Immediately call a POISON CENTER/doctor.

P302+ P352 IF ON SKIN:

Wash with plenty of water.

P305 + P351 + P338 IF

IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P321 Apply specific treatment (see label for more details).

P331 Do NOT induce vomiting.

P332 + P313 If skin irritation occurs: Get medical advice/attention.
a doctor.

P333 + P313 If skin irritation or rash occurs: Get medical advice/attention.

P337+ P313 If eye irritation persists: Get advice/seek medical attention.

P362+ P364 Take off contaminated clothing and wash before reuse.

P391 Collect spillage.

Storage:

P405 Store under lock and key.

Disposal:

P501 Dispose of contents/container to in accordance with local, national, or international regulations.

Hazardous ingredients must be listed on the label:

EC 266-034-5 TERPENES AND TERPENOIDS, LIMONENE FRACTION

EC 201-134-4 LINALOOL

EC 203-378-7 NEROL

EC 260-709-8 DELTA-1-(2,6,6-TRIMETHYL-3-CYCLOHEXEN-1-YL)-2-BUTEN-1-ONE

EC 203-765-0 2-METHYLUNDECANAL

EC 253-617-4 ISOHEXENYL CYCLOHEXENYL CARBOXALDEHYDE

2.3 Other hazards

This substance/mixture does not contain any components considered to be persistent, bioaccumulative bioaccumulation and toxic, or very persistent and very bioaccumulative (vPvB) at a level of 0.1% or above.

Ecological information: This substance/mixture does not contain any components considered to be endocrine disrupting properties according to Article

57(f) REACH Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or higher.

Toxicological information: This substance/mixture does not contain ingredients considered to have endocrine disrupting properties according to Article 57(f) REACH Commission Regulation (EU) 2018/605 or Commission Delegated Regulation (EU) 2017/2100 at levels of 0.1% or higher

The full text of the H statements cited in this section can be found in section 16

SECTION 4: First aid measures

In general, if in doubt or if symptoms persist, always call a doctor.

Sweet Mandarin

Version

Updated: January 17, 2025

Printed on: January 17, 2025

NEVER induce vomiting in an unconscious person.

4.1 Description of first aid measures

In case of eye contamination:	Hold the eyelids open and rinse thoroughly with soft, clean water for 15 minutes. If redness, pain, or visual disturbances occur, consult an ophthalmologist.
In case of skin contamination	Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognized cleaning agent. Be aware that the product may remain between the skin and clothing, watches, shoes, etc. If symptoms of an allergic reaction occur, seek a doctor's advice. If the contaminated area is extensive and/or skin damage, consult a doctor or transport the affected person to a hospital.
If swallowed	Do not give the victim anything by mouth. If swallowed, if the amount is small (no more than one sip), rinse mouth with water and consult a doctor. Provide conditions for rest. Do not induce vomiting. Call a doctor immediately and show them the label. If accidentally swallowed, contact a doctor to assess the need for monitoring and further symptomatic treatment in a hospital setting. Show the label. If accidentally swallowed, do not give any drinks, do not induce vomiting, and immediately transport to a hospital by ambulance. Show the label to the doctor.

4.2 Most important acute and delayed symptoms and effects of exposure

No data available.

4.3 Indications for any immediate medical attention and special treatment of the victim

No data available.

SECTION 5: Firefighting measures

The product is not flammable.

Sweet Mandarin

Version

Updated: January 17, 2025

Printed on: January 17, 2025.

5.1 Fire extinguishing agents

Suitable extinguishing media

sprayed water or water mist

Unsuitable extinguishing media

water jet

5.2 Special hazards arising from the substance or mixture

Fire often produces dense, black smoke. Exposure to decomposition products may be hazardous to health.

Do not inhale smoke.

The following combustion products may be formed:

- carbon monoxide (CO)

- carbon dioxide (CO₂)

5.3 Information for firefighters

No data available.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment, and emergency procedures

Familiarize yourself with the safety measures listed in points 7 and 8.

For non-rescuers

Avoid contamination of skin and eyes.

For rescuers

Persons carrying out the intervention must be equipped with appropriate personal protective equipment (see section 8).

6.2 Environmental precautions

Contain and collect spilled or leaked material with non-combustible absorbent material such as sand, earth, vermiculite, diatomaceous earth, in barrels for disposal.

Prevent material from entering sewers or waterways.

6.3 Methods and materials for preventing the spread of contamination and for decontamination

It is recommended to clean with detergents; do not use solvents.

Sweet Mandarin

Version

Updated: January 17, 2025

Printed on: January 17, 2025.

6.4 References to other sections

No data available.

SECTION 7: Handling and storage of substances and mixtures

Recommendations for storage rooms also apply to workshops where the mixture is used.

People who have ever experienced skin allergies should not come into contact with this mixture.

7.1 Precautions for safe handling

Precautions	Wash hands after each use. Remove contaminated clothing and wash it before reuse. Ensure adequate ventilation, especially in enclosed rooms.
Fire prevention	Use in well-ventilated areas. Do not aspirate this mixture. Keep away from unauthorized personnel.
Recommended equipment and procedures	Personal protective equipment - see section 8. Follow the precautions on the label and industrial safety regulations. Avoid contact of the mixture with skin and eyes. Open containers should be closed carefully and store in an upright position.
Prohibited equipment and procedures	Do not smoke, eat, or drink in areas where the mixture is used. smoking, eating, or drinking.

7.2 Conditions for safe storage, including any incompatibilities

Storage	Keep container tightly closed in a dry, well-ventilated place. Do not store together with food, beverages, or animal feed. The floor must be impermeable and form a collection basin so that in the event of accidental spillage, the liquid be able to escape beyond this area.
Packaging	Always store in packaging made of the same material as the original. the same material as the original.

7.3 Specific end use(s)

No data available.

SECTION 8: Exposure controls/personal protective equipment

8.1 Control parameters

Occupational exposure limits:

- Poland (Journal of Laws of 2018, items 917, 1000, and 1076):

CAS	TWA:	STEL:	Ceiling:	Definition:	Criteria:
103-23-1	400 mg/m3				

8.2 Exposure control

Personal protective equipment, such as personal protective equipment

Pictogram(s) indicating the obligation to use personal protective equipment (PPE):

Personal protective equipment used should be clean and maintained in good condition. Store personal protective equipment in a clean place, away from the work area.

Do not eat, drink, or smoke when using. Remove contaminated clothing and wash it before reuse. Ensure adequate ventilation, especially in confined spaces.

8.2.1 Personal protective equipment

Eye/face protection

Avoid contamination of the eyes.
Use eye protection designed to protect against liquid splashes.
Before each use, wear safety glasses with side shields in accordance with ISO 16321.
In case of increased risk, use a face shield
.
Prescription glasses do not provide protection.
Contact lens wearers are advised to wear prescription glasses during work where they may be

Sweet Mandarin

Version

Updated: January 17, 2025

Printed on: January 17, 2025

Hand protection

exposed to irritating vapors.

Rooms where the product is used continuously should be equipped with eye wash stations.

Use suitable chemical-resistant gloves in accordance with EN ISO 374-1.

The choice of gloves depends on the application and the length of use at the workplace.

Protective gloves should be selected according to the workstation, taking into account: other chemicals that may be used,

necessary protection against physical hazards (cuts, punctures, thermal protection), required ease of handling.

Recommended glove type:

- PVA (polyvinyl alcohol)

- Butyl rubber (isobutylene/isoprene copolymer)

Body protection

Avoid skin contamination.

Wear appropriate protective clothing.

Type of suitable protective clothing:

In case of heavy splashes, use clothing that protects against liquid chemicals, with connections.

liquid-impermeable in

liquid form (type 3), in accordance with EN14605/A1, to avoid any contact with the skin.

In case of splash hazard, use clothing that provides limited protection against liquid chemicals (type 6), compliant with EN13034/A1, to avoid any contact with the skin.

Personnel should wear work clothes that are washed regularly. After contact with the product, wash all contaminated parts of the body.

No data available.

SECTION 10: Stability and reactivity

10.1 Reactivity

No data available.

10.2 Chemical stability

This mixture is stable under the storage and handling conditions recommended in Section 7.

10.3 Possibility of hazardous reactions

When exposed to high temperatures, the mixture may release hazardous decomposition products such as carbon monoxide and carbon dioxide, fumes, nitrogen oxide.

10.4 Conditions to avoid

No data available.

Sweet Mandarin

10.5 Incompatible materials

No data available.

10.6 Hazardous decomposition products

The following products may be released/formed as a result of thermal decomposition:

- carbon monoxide (CO)
- carbon dioxide (CO₂)

SECTION 11: Toxicological information

11.1 Information on hazard classes defined in Regulation (EC) No. 1272/2008

Exposure to solvent vapors contained in the mixture above the indicated exposure limits may cause adverse health effects such as irritation of the mucous membranes and respiratory system, damage to the kidneys, liver, and central nervous system.

Symptoms include headaches, numbness, dizziness, fatigue, and, in extreme cases, loss of consciousness.

It may cause reversible skin damage, i.e., dermatitis or the formation of erythema, scabs, or edema, as a result of exposure for up to four hours.

Prolonged or repeated contact with the mixture may cause removal of the natural lipid layer of the skin and cause non-allergic contact dermatitis and absorption through the epidermis.

May cause reversible eye damage, i.e., eye irritation that is completely reversible within a 21-day observation period.

Splashes in the eyes may cause irritation and reversible damage. May cause an allergic reaction following skin contact.

Aspiration toxicity includes serious acute effects such as chemical pneumonia, varying degrees of lung damage, or death as a result of aspiration.

Acute toxicity

DELTA-1-(2,6,6-TRIMETHYL-3-CYCLOHEXEN-1-YL)-2-BUTEN-1-ONE (CAS: 57378-68-4)

Oral route: LD₅₀= 1400 mg/kg body weight/day

Sweet Mandarin

ALLYL HEXANOATE (CAS: 123-68-2)	Oral route: LD50= 218 mg/kg body weight/day After application to the skin: LD50= 300 mg/kg body weight/day
NEROL (CAS: 106-25-2)	Oral route: LD50= 4500 mg/kg body weight/day
1-(5,6,7,8-TETRAHYDRO-3,5,5,6,8,8- HEXAMETHYL-2-NAPHTHYL)ETHAN-1- ONE (FIXOLID) (CAS: 1506-02-1)	Oral route: LD50= 1000 mg/kg body weight/day
LINALOOL (CAS: 78-70-6)	Oral route: LD50= 2790 mg/kg body weight/day

Aspiration hazard:

Ingestion and inhalation may be fatal.

Aspiration toxicity includes serious acute effects such as chemical pneumonia, varying degrees of lung damage, or death as a result of aspiration.

11.2 Information on other hazards**Endocrine disrupting properties**

The mixture does not contain any substances that are assessed to be endocrine disruptors and cause adverse health effects.

CIRC (International Agency for Research on Cancer) monograph(s):

CAS 123-35-3: IARC Group 2B: Possibly carcinogenic to humans.

CAS 5989-27-5: IARC Group 3: Substances that cannot be classified as carcinogenic to humans.

CAS 91-64-5: IARC Group 3: Substances that cannot be classified as carcinogenic to humans.

CAS 103-23-1: IARC Group 3: Substances that cannot be classified as carcinogenic to humans.

SECTION 12: Ecological information

Toxic to aquatic organisms, causing long-term adverse effects. Do not allow product to enter sewers or waterways.

No information on toxicity to the aquatic environment is available for this mixture.

No data available.

No data available.

No data available.

No data available.

The mixture does not contain any substances assessed as endocrine disruptors and causing adverse effects on the environment.

No data available.

Proper waste management of the mixture and/or container should be determined in accordance with the provisions of Directive 2008/98/EC.

Do not pour into drains or waterways.

Product	Waste management should be carried out without posing a threat to human health and without posing a threat to the environment, in particular to water, air, soil, fauna, and flora. Recycle or dispose of in accordance with applicable regulations by a licensed waste treatment company. Do not contaminate soil or water with waste, do not dispose of it in the environment.
Contaminated packaging	Empty the container completely. Keep the label(s) on container. Hand over to a licensed company dealing with

waste treatment.

SECTION 14: Transport information

Transport the product in accordance with the provisions of ADR for road transport, RID for rail, IMDG for sea and ICAO/IATA for air (ADR 2023 - IMDG 2022 [41-22] - ICAO/IATA 2024 [65]).

15.2 Chemical safety assessment

No data available.

SECTION 16: Other information

As we are not familiar with the user's working conditions, the information provided in this product safety data sheet is based on our current knowledge and national and European Community regulations.

The mixture should not be used for any purpose other than those listed in Section 1 without first obtaining written instructions on how to handle it.

The user is always responsible for taking the necessary measures to comply with legal requirements.

The information provided in this safety data sheet should be considered as a description of the safety requirements associated with this mixture and not as a guarantee of its properties.

Full text of H statements:
