SECTION 4: First aid measures

In general, if in doubt or if symptoms persist, always call a doctor. NEVER induce vomiting in an unconscious person.

4.1 Description of first aid measures

In case of eye contamination	Hold the eyelids open and rinse thoroughly with soft, clean water for 15 minutes.
In case of skin contamination	Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognized cleaning agent. Be aware that the product may remain between the skin and clothing, watches, shoes, etc. If symptoms of an allergic reaction occur, seek a doctor's advice. If the contaminated area is extensive and/or skin damage, consult a doctor or transport the affected person to a hospital.
If swallowed	Do not give anything by mouth to the affected person. If swallowed, if the amount is small (no more than one sip), rinse mouth with water and consult a doctor. Ensure conditions for rest. Do not induce vomiting. Call a doctor immediately and show them the label. In case of accidental ingestion, contact a doctor to assess the need for monitoring and further symptomatic treatment in hospital conditions. Show the label.
